

CARE INSTRUCTIONS

JACKETS

CLOSE ALL THE ZIPPERS ON THE GARMENT BEFORE WASHING.
DO UP BUTTONS AND CLOSE VELCRO FASTENERS ON GARMENTS.
THIS REDUCES THE RISK OF DAMAGING THE MATERIAL AND
ANY DETAILS ON THE GARMENT.

RIDING BREECHES

PULL UP THE ZIPPER AND TURN THE BREECHES INSIDE OUT
BEFORE WASHING. THIS IS GENTLER ON THE FABRIC AND EDGES.
IT ALSO PREVENTS THE ZIPPER FROM CAUSING ANY DAMAGE.
BREECHES WITH PU LEATHER IMITATION SHOULD BE GENTLY
STRETCHED AFTER WASHING WHILE THEY ARE STILL DAMP.

MACHINE WASH

These symbols mean that the garment can be machine washed at a recommended maximum temperature.

A line under the symbol means a gentle wash in a half-full machine and two lines means very gentle.

HAND WASH

Only hand wash in cold water at 40°C. Make sure the washing powder is thoroughly dissolved before washing the garment. Do not soak. Do not leave the garment in the water as the dyes in garments can easily migrate. Do not rub and wring the garment.

This symbol means that the garment must **not** be washed in water.

DRY CLEAN

This symbol means that the garment can be dry cleaned. The various letters are information for the dry cleaner.

Do not dry clean.

DRYING

Most garments can be spun-dry for one minute. Almost all garments can be tumble-dried too, which is indicated by this symbol. However, woollen garments should never be tumble-dried.

This means that the garment should not be tumble-dried.

These drying symbols may also appear on the label (from the left, line-dry, drip-dry, flat-dry).

IRONING

The symbol shows that the garment can be ironed and at which temperature (dots).

The garment must not be ironed.

BLEACHING

Can be bleached. Do not bleach.
